

# ZODIAC HAWK

Thermal Transfer Overprinter

## 18 FAST FACTS AND FEATURES

- 1 Unique airless operation**  
Low cost, lower maintenance, less failures, eco friendly
- 2 iAssure integrated print checking**  
The first ever printer to check its own print
- 3 Improve Overall Equipment Effectiveness (OEE)**  
A printer that can effectively measure and help improve all aspects of OEE
- 4 Enhanced print quality**  
Patented feedback from printhead and ribbon drive motors ensure optimum print
- 5 Simple cassette design**  
Easy to change, easy to web, simple and operator friendly
- 6 Very low maintenance**  
No adjustable or wear parts, means reliably performance without maintenance
- 7 Lowest cost of ownership**  
Proven reliability and lowest cost of ownership in class
- 8 Small footprint for easy integration**  
Flexible architecture, allows for easy integration with OEM machinery
- 9 Full operator activity audit trail**  
The ICE Zodiac Hawk can log all operator activity for complete transparency
- 10 Patented solid state ribbon drive**  
A successful technical innovation, which has been enhanced further
- 11 Enhanced CLARiTY operator interface with onboard training videos**  
Easy to use interface, includes operator training videos, for added assurance
- 12 High speed printing capability (>1000mm/sec)**  
Print speed performance significantly increased
- 13 Slow speed printing capability (1mm/sec)**  
Innovative slow printing operation ensures no missed packs
- 14 Patented head actuation**  
Unique motor drive feedback provides very precise head control and movement
- 15 Dynamic ribbon tension adjustment**  
Absolute control of ribbon tension throughout each roll
- 16 1200 metre ribbon capacity**  
Largest ribbon capacity available as standard
- 17 Advanced web browser link included**  
Advanced communication protocols and host machine linking
- 18 Remote service connectivity options**  
Special remote service response options available
